

Hello! My name is Carolina, I am a 22 years old girl from Portugal and I will be living in Będzin and volunteering here, in the high school complex of Wojkowice.

I have a bachelor in International Relations and a Postgraduate in Crisis and Humanitarian Aid. I adore Portugal and my culture, but I am also very interested in different cultures, in different historical contexts and in different mindsets, so I am very happy to have the opportunity to participate in this project and the chance to discover Poland.
